

Available Now:

SANY 25m³ Truck Mounted Concrete Pump

Pumping Excellence with the Peace-of-Mind of Lifetime Support.

• 2 Available for immediate sale

Mounted to Mitsubishi Fuso Fighter FN2428 or Hino FM2632.

A peace of mind investment.

National service, technical support and full parts back-up.

Technical Overview:

- SANY latest boom technology, light weight 4 stage Z-fold.
- Large pump unit with a maximum output of 150m³ per hour.
- Delivery cylinders 200mm diameter with 1300mm stroke.
- Gross vehicle weights: 19,500kg (Fuso) / 19,760kg (Hino)
- 150mm delivery pipe from the hopper.
- Twin piping standard, straight tube hinged elbows are double lined for extreme wear.
- Fault displayed on the monitor continually monitoring 200 functions.
- Discharge port and transitions service life of 60,000-80,000m³.
- Concrete piston German rubber technology abrasive and temperature resistance.
- Wear ring/cutting rings manufactured from high wear resistant alloy to prevent crumbling and leaking for increased service life.
- Delivery cylinders- cylinders are lined with chrome to .03mm with a hardness exceeding HV90 giving a service life approximately 80,000m³ (depending on operating condition).
- Boom overload protection technology
- Hopper screen interlock switches for safety. Hopper lids as standard.
- Vibrator fitted to the grill with control switch on both sides of the hopper.
- Horn activation switch fitted to both sides of the hopper to alert the driver.
- European wireless remotes standard.
